Education

Graphic Era Deemed To Be University

Bachelor of Technology in Computer Science Engineering

August 2023 – August 2027

CGPA: 7.55

Technical Skills

Languages: C, C++, Python, Java
Technologies: Web Development, Cloud(AWS)
Operating System: Windows, MacOS, Ubuntu
Database: MySql,Sql
CourseWork: DSA, Operating System, DBMS, Networking(CN)

Projects

Keylogger Detector | *Python, Tkinter, psutil, VirusTotal API, hashlib* | 🐙

September 2025

- Designed and developed a desktop-based security tool to detect, analyze, and terminate suspicious background processes using **heuristic scanning techniques**.
- Integrated the **VirusTotal API** for real-time threat intelligence and implemented SHA-256 hashing (`hashlib`) for **process integrity verification**.
- Built an interactive GUI using **Tkinter** with real-time monitoring, automated alerts, and system-level process management.

IMDB/Netflix Movie Ratings | *HTML5, CSS3, JavaScript, DSA* | 🐙

April 2025

- Developed the responsive frontend using **HTML, CSS, and JavaScript** for a movie-sorting and filtering web application.
- Implemented DSA-based sorting and searching algorithms to optimize movie filtering performance.
- Collaborated in a team-based development environment, ensuring clean UI design and seamless user interaction.

Quiz Master Online | *React.js, Node.js, MongoDB, HTML5, CSS3, JavaScript* | 🐙

October 2023

- Programmed comprehensive online examination application serving students with real-time quiz functionality and automated scoring system.
- Designed an interactive user interface using React.js, improving user engagement and overall navigation experience.
- Enhanced responsive design and cross-browser compatibility ensuring seamless access across desktop and mobile devices and enhanced application performance through efficient state management and component lifecycle optimization reducing load times.

Achievements

- Hacktoberfest 2025-Super Contributor (Top 10,000 Globally):** Completed 6+ quality pull requests across open-source repositories; received official recognition and merchandise.
- Google Arcade – No Voice Contributor:** Earned contributor recognition by consistently solving competitive coding and technical challenges on the Google Arcade platform.
- LeetCode:** Solved 150+ Data Structures and Algorithms problems covering arrays, strings, trees, graphs, and dynamic programming.

Accomplishments

- AWS Knowledge: Cloud Essentials - Training Badge.
- Build a Secure Google Cloud Network Skill Badge.
- Google Cloud Computing Foundations Certificate.
- Implement Load Balancing on Compute Engine Skill Badge.
- Prepare Data for ML APIs on Google Cloud Skill Badge.
